Meeting aims....

- Provide an update on and discuss the work progressed at the initial Working Group sessions:
 - Data Capture, Validation & Transfer (including a discussion on the initial outputs relating to Data Capture at point of sale - a further document to be issued ahead of this meeting)
 - Consumer Communication & Engagement Working Group
 - Initial updates against the Forum Questions detailed within the ToR Appendix
- Initial consideration of any implications of faster switching to the current Confidence Code and Energy Switch Guarantee arrangements
- Discuss the topic of Collective Switching and come to a decision as to whether this requires further forum consideration or should be deemed out of scope
- A walkthrough and update on the various actions captured to date
- Review the Risk Register and consider any additions or escalations
- Provide oversight of the meeting dates and work plan for the next couple of months
- Finally, provide an opportunity for parties to raise any items of AOB
